34,000 Majority

Democrats Make Old Time Sweep in Kentucky.

Republicans Will Have Only Twenty-Six Members in General Assembly. Only 11th District Republican.

Kentucky went Democratic last Tuesday by over 30,000 majority. Ten of the eleven Congressional districts gave Democratic majorities, and the 11th failed to do anything near what O'Rear and Langley were claiming.

Telegrams of congratulation from prominent men from all over the United States have been pouring in to Senator McCreary, one of the first being from William Jennings Bryan.

Louisville gave the Democratic ticket more than 5000 majority, a difference of about 14,000 from four years ago.

The lower house of the Legislature is composed of about 26 Republicans and 74 Democrats. The Senate is also largely Democratic.

The Democrats of Mason and Lewis counties elected a Senator, for the first time in many years.

Montgomery county, O'Rear's home, gave 430 majority for McCreary, this being about 50 per cent more than the usual majority.

Boyd county gives O'Rear less than 100 majority. Dr. Wade later, carried it for Representative.

Later 106.

Sunday Kirk was elected to the Senate for Johnson and Boyd, defeating by a greatly reduced majority. D. Bond, Democrat, made a remarkable showing in that Republican district. O'Rear carried Johnson and Kirk 276. Martin waiting, also reported to have given Rose Sicht less than 300.

Halligan and Lawrence Finn Christiansen, Railroad Commissioners Herbe Jacky, thus giving the Democrats a majority of that body.

Hoton, Ky., Nov. 8.—The offices given out here today Thomas A. Coombs, Democrat, defeated for the State J. T. Tunis, Fusion-Repub-

licans, 116; D. C. Hunter, Democ-

atic Representative, by a small margin, wins over Nichols, Democrat, for Rep-

admirably arranged and placarded that there was no difficulty whatever in seeing and examining with the eye everything in the entire collection. It was, in fact, a complete agricultural fair minus the live stock and the brass band. It would take a column of the Big Sandy News to set forth the entire contents of the car. There were, for instance, 28 varieties of hay alone, that is, that many kinds of stuff which could be used as a wholesome, nutritious feed similar to what is usually known as hay. The exhibit was in charge of Mr. Guy L. Stewart, Agricultural and Industrial Agent of the Cotton Belt Route, and he was certainly "on to his job." During the necessarily short time the car was here it was visited by very many of our citizens. When it left the collection was enriched by the contribution of two Big Sandy products, a fine specimen of sorghum molasses and a big bottle of lately produced oil.

MAIL FOR SANTA CLAUS.

The Post-office Department has raised the ban on Santa Claus mail after all. Rescinding recent decision, Postmaster General Hitchcock has directed that any letters addressed to "Santa Claus" may be delivered to charitable organizations or benevolent persons that ask for them, instead of having such mail returned to the senders or destroyed.

Mr. Hitchcock says he did not think the practice of delivering "Santa Claus" mail would lead to abuses, as was feared by some of the officials of the department. The many poor children who can be blessed with a happy Christmas in this way, he declared, make the department's handling of Santa's mail worth while.

LAWRENCE COUNTY.

O'Rear 72, McClure 106. With Light Vote Out.

The figures in the poll books of Lawrence county show that O'Rear carried it by 72, R. C. McClure, for Legislature, has a majority of 16. This elects him by a majority of three votes in the district on the face of the returns. The official count, which includes the consideration of the questioned ballots, may make some change in these figures.

Dr. Wade, Democratic candidate for the Legislature, carried Boyd county by 103 majority, making a remarkable race. Boyd is normally Republican by about 800.

The total vote cast in Lawrence county was about 800 short. The total was 3260, while the full number of voters is about 4050. The absence of a good account in a large measure for the shortage, no doubt.

HIS ARM BROKEN.

John O'Brien, who has a position at the dam being constructed across the Ohio river near Ashland, is at home on account of a broken arm. He had gone from the work to procure a needed bolt, and while returning was struck by a car on the incline and injured as above mentioned. He was taken to the King's Daughters' hospital, where he remained until Tuesday.

TWO OIL WELLS DRILLED IN

The Guyan Oil Company drilled in a well about half a mile west of Busseyville last Friday and it is said to be a small producer. We have no definite information about it, however. We learn that the well is to be shot in a day or two.

The Hays Oil Company is drilling in a well today. The latest report from it is not encouraging.

They were several feet in the Berea grit and had only a slight showing.

The drilling will continue until they are through the Berea.

The Prince company well is down to the Berea formation and work has stopped temporarily.

THE MARGURITE SMITH CO.

Remember the splendid entertainment at Masonic Hall Friday night. The reserved seats sheet is now at Conley's store, and you will do well to call there early.

Concert begins promptly at 7:30.

CLINCHFIELD RAILROAD

Extension to C. & O. Connection Seems Assured.

That there is something doing in connection with the long-projected extension northward of the Carolina, Clinchfield and Ohio Railway is evident. A late report from Frankfort announces the charter there of the Clinchfield Northern Railway of Kentucky, with capital of \$5000. The incorporators are all residents of Johnson City, Tenn.; at least, their addresses appear so at Frankfort. The name of J. C. Stone, treasurer of the Carolina, Clinchfield and Ohio, heads the list, with that of Isaac McQuillin, comptroller, second, the others being E. S. Bolen, H. G. Morrison and W. W. Belew.

The Carolina, Clinchfield & Ohio is now about 250 miles long from Dante, Va., via Johnson City to Spartanburg, S. C., and the approximate

ly 41 miles between Dante, Va., and Elkhorn City, Ky., a terminus of the Chesapeake and Ohio Railway, is put down in the railroad guides a being "under construction," although little progress has lately been made upon it, according to reports from that part of the country.

The road also has a branch of about 12 miles extending from St. Paul, Va., which is 7 1/2 miles south of Dante, to Hurricane.

It has been reported for some time that the Chesapeake and Ohio Railway and the Seaboard Air Line were after the Carolina, Clinchfield and Ohio, with a view to a purchase, the former for a southern outlet for its western lines and the latter for a connection of its own to large coal fields. Recent references to this prospective deal indicated that there was at present little prospect of an early consummation of it.

But now comes the announcement that M. J. Caples, who for several years has been vice-president, general manager and chief engineer of the Carolina, Clinchfield and Ohio, has resigned and has accepted the position of vice-president in charge of transportation on the Chesapeake and Ohio Railway, with headquarters at Richmond, Va. He takes up his new duties November first.

There was also the statement from Richmond that Major James H. Dooley and Frederick W. Scott, the latter of Scott and Stringfellow, bankers, resigned from the board of directors of the Chesapeake and Ohio, but if Major Dooley's resignation was presented it must have been withdrawn, as a late dispatch

MASSACHUSETTS

And Ohio Democratic by Good Majority.

Cincinnati Elects Entire Democratic Ticket. Cleveland and Other Cities Get in Band Wagon.

Gov. Foss, Democrat, is re-elected in Massachusetts, but the remainder of the offices were retained by the Republicans.

In Ohio the Democrats won control in all the large cities except Dayton. Cincinnati elected Hunt for Mayor, with all minor officers and a large majority in the council, Democratic. The Cox gang was overwhelmed.

New Mexico elects its first set of officials, having only a few months ago become a State.

In New York the Democrats won in Greater New York City. The lower house of the Legislature is Republican.

Maryland elected the Republican ticket because of a big factional fight in Democratic ranks.

New Jersey also went Republican on account of a split in the Democratic party.

EFFECTS OF THE ELECTION.

Washington, D. C. Nov. 8.—In their hearing on 1911, the elections of yesterday according to experienced political judgment here, have demonstrated the following facts conclusively:

Republican chances west of the Alleghenies are minimized.

The fight is to be seated in the East with Massachusetts, New York, New Jersey, Pennsylvania and Maryland classed as exceedingly doubtful States.

Kentucky is removed from the doubtful class to the certainly Democratic class.

Oregon leans more toward the Democratic party than before.

In a word, every resource of the two parties from today forward will be cast along the Atlantic Coast and the five States shown yesterday to be in grave doubt for 1912 and without whose electoral vote no candidate can win, will bear the brunt of the battle.

HEALTH EXHIBIT.

Car Will be at Louisa on November 14th.

A modern Railroad passenger coach fitted up as a Traveling Health Exhibit by the Kentucky Association for the Study and Prevention of Tuberculosis, is now touring the State of Kentucky making stops at all railroad stations.

At each stopping place the public is invited to see the exhibit, free of charge, and hear practical talks about Consumption and other infectious diseases. The car is well stocked with novel Charts, Mottoes and Model Houses showing where the dangers from diseases lie and how they can be prevented, in a way that every man, woman and child can understand it.

The Exhibit is in charge of Mr. Eugene Kerner, Secretary of State Association and assistant. Mr. Kerner will deliver an illustrated lecture on "What Everybody Ought to Know About Consumption," at each stopping place.

Wherever shown, the Exhibit has attracted large crowds of people who were greatly benefitted in getting a clear understanding of Kentucky's most fatal disease, The Great White Plague.

This car is billed to be at Louisville, Nov. 14, but at this hour the news is without particulars. Dr. Bromley, the County Health Officer, has not been advised further than this notice. Our people should attend the exhibit.

DEATH OF MISS GOLDIE MOORE.

Miss Goldie Moore died of tuberculosis at Portsmouth last Saturday, Nov. 4th. She was a daughter of Z. H. Moore, formerly of this county. Her age was 18 years. The body was brought back to the old home at Ulysses for burial, accompanied by the surviving members of the family.

BOYS CORN CLUB.

Contest to be Decided on Saturday, December 2nd.

The earliest possible date for the exhibit and awarding of the prizes is the time and date now made, December 2nd at the Court House at 10 a.m.

The members of the Club are requested to be there promptly at that time, and have ten ears, their best 10 ears, with them, as on the best ten ear exhibit the different premiums will be made. We found it impossible to visit all the plots of corn and make the awards on the acre plan and substituted the ten ear system. The drought of the growing season interfered to a great extent with the corn crop, yet that need not deter any boy of the Club from showing his corn. Boys, remember the date, December the 2nd, at 10 o'clock a.m. at the Court House. Bring your corn, bring your father, your mother, your brothers and sisters with you and we will try and make the day pleasant and interesting to them. Let each member of the Club, who reads this takes pains to inform other boys of the date of the Corn Show. Below we give the prizes so far as arranged for at the present date, but hope to add others to the lists.

First prize, best 10 ears, \$15.00.

Second prize, 2nd best, 10.00.

Third prize, 3rd best, 5.00.

Fourth prize, 4th best, 3.00.

Fifth prize, 5th best, 2.50.

Sixth prize, 6th best, 2.00.

The next ten each, 1.00.

For the best written history of the crop, giving mode of cultivation, dating of planting, how planted, condition of soil when planted, dates of when rains came, and when the corn was ripe. In this contest neatness, style of paper, neatness and the language used will be considered and no regard paid to the quality of corn shown by boys competing.

The judge or judges will in all probability be sent by the Department of Agriculture from the Kentucky Experiment Station, and fairness shown to all.

This can be made of great benefit to the county, if the boys will all bring in their corn. Farmers are all invited to attend. Boys not members of the Club are all invited. Everybody is invited to attend, but it is the boys.

Members of the Club, Anton B. Johns, John Pfeifer, Jay Post, Clyde Barnet, Fred Gussler, Winfield Roberts, Carl Waller, Hubert Waller, Car Carter, John Burchett, John C. Kane, John Ash, Arnold Bowe, Oscar Vinson, Wm. Vanhouse, Carl

Eakers, Wayne See, Walter Clayton, Good O'Brien, Fred See, Edgar Peters, Ted Billups, Dave Burke, Roy McKinster, Robert Maynard, T. T. Thompson, J. B. See, Michael See, John I. Roberts, Morris Skeens, Anderson Moore, Harry Curnutt, Michael Stanbury, Arlie See, Tom Kise, Jay Thompson, Roy Thompson, Frank Thompson, Robert Carter, A. J. Murphy, Woods, son of Square Woods.

Boys, get your corn ready, and don't fail to be on hand Saturday December 2nd, 1911.

OUR SCHOOL DEPARTMENT.

The following announcement is for the Ninth District Educational Association on November 24-25:

The spirit of co-operation has budded among us and has, at last, bloomed into this magnificent flower, the Ninth District Educational Association. Every county and city superintendent, every high school and rural teacher in the District are justly proud of the organization; and large hosts are making preparations to attend this first meeting at Carlisle, and to become charter members so to speak of the organization.

The Ninth Congressional District, composed of the counties of Lawrence, Boyd, Greenup, Lewis, Bracken, Mason, Harrison, Nicholas, Fleming, Bath, Carter Robertson and Rowan, though one of the last to perfect an organization of its educational forces, is one of the most progressive Districts in the State, and one which has led in many of education movements that are now stirring the State of Kentucky to its depths. Our present State Superintendent, Hon. Ellsworth Regenstein, was reared in the Ninth, being a native of Lewis county. Our former State Superintendent, Dr. J. G. Crabbe, went from the Ninth to his high and honorable position. No district has contributed more to the cause of education, and none can boast of more progressive, wide-awake, educators.

- All schools are requested to send representatives and help make this, the last convention of the year, a real success.

The business man who saves a dollar or two a year by using "sloppy" and inartistic printed stationery, such as letter heads, bill heads, statements, tags, etc., stands chance of losing hundreds by the impression of cheapness and stinginess that he conveys to every man who sees any of it. Nothing pays so well as neat business stationery and the difference in cost over the other kind is too small to consider.

Madge, Ky.—Interest in the school seems growing. Attendance is good, but still not what it ought to be. The children are anxious to make good grades in the examinations. The highest grades for the third month's examination are as follows: Bess Bradley 97; Ivory Burchett 95; Lee Nolen 91; Ernest Thompson 91; Inez Wellman 88; Gertrude Damron 87.

Almost all of the pupils are doing good work. OTHA BERRY, Teacher.

Peach Orchard, Ky.—My school is progressing very nicely, and I am very well satisfied with the advancement most of those are making who are regular in attendance. My greatest trouble at this place is irregularity in attendance. We held our monthly examination at the close of the month. Alma Castle and Hattie Fannin received the highest grades.

A. W. OSBORNE, Teacher.

Ulysses, Ky.—Report for third month:

Grade I, Bracken Skaggs 80; Little Boyd 78; Grade II, Vera Chaffin 82; Mary Hatfield 81; Grade III, Frank Castle 80; Charley Chandler 80; Grade IV, Arthur Chandler 82; Dore Allen 80; Grade V, Roy Lowe 83; Willie Thompson 82; Grade VI.

Pupils did not attend examination.

Grade VII, Jeff Chandler 87.

I give two from each grade who took the examination. Other made excellent grades. These grades I am sure, are not higher than they should be.

We have purchased a library.

Barksdale Hamlett, Superintendent Hopkinsville City Schools, and an address by that peerless wit, Prof. J. S. Dickey, President Bowling Green Business University. An excellent musical program will be rendered by Carlisle's noted musical talent.

Place of Meeting.

Carlisle is a place far famed for its genuine Southern hospitality. It is a city of cultured and refined citizenship, and contains some of the most elegant homes in the State. "A stranger within its gates," immediately begins to feel the spirit of hospitality and good cheer; and to be there once is to have implanted in the heart a strong desire to return.

The good people of Carlisle are making great preparations to make the stay of members of the Association pleasant while there. Several committees of representative men and women are hard at work now completing these arrangements.

Hotels.

Potts Hotel will be the Association Headquarters, and reasonable rates will be arranged.

Hotel Facebook, also offers excellent accommodations.

Several good boarding houses are convenient to the building in which the Association will be held, and a number of private homes will be opened.

Railroad Rates.

Parties of ten or more can secure on all railroads a rate of two cents per mile.

Prize Offer.

Mr. C. H. Deitrich, of the American Book Company, has made to the county in the District which sends the largest delegation of members the generous offer of a library, consisting of Libraries No. 4 and 8, published by that company. To these libraries will be added one copy of Carpenter's "How the World is Housed," and one copy of Goff and Mayne's "First Principles of Agriculture."

The County in which the meeting is held will be excluded from this contest, owing to their advantage over the others.

Work of the Association.

It will be the aim of the Association to promote the cause of education, in the State, and, especially, to advance by persistent, organized effort, the welfare of the cause in the Ninth District. Its object will be, too, to promote necessary educational reforms. Every superintendent and teacher in the District should feel a thrill of pride and patriotism in this organization, which though an infant, is a sturdy one; and everyone should take a personal pride and interest in fostering its growth and development. The meeting at Carlisle is all important. It will be significantly historical. Let all who claim the dear old Ninth as their home, and who enjoy the benefits and blessings of its circle, bestir themselves to make this gathering the greatest of its kind ever known in the State.

We now have our books in school, and I find the pupils are anxious to peruse their pages.

We bought fourteen volumes, and will increase the same before the close of the term.

I am sure each teacher in the county can secure a library, if he will only make an effort.

My average for the third month is 40. The same was reduced to this figure on account of high water.

Had it not been for that, my average would have been something like 40 or 50.

Prospects are better for the present month.

I am glad to say that my patrons are giving me their support in all that I ask them to do.

Very truly,

ISONVILLE, KY.

Continued wet weather has greatly retarded fall work in this vicinity.

Much of the fall sowing of wheat and rye will have to be given up and not sowed at all or sown in oats in the spring.

There was only a fair yield of sorghum of a dark strong quality.

But there is generally enough of all farm products grown in this section for domestic use.

Yes, it was quite a landslide, but next year it will be an avalanche.

SORGHUM.

A Kentucky newspaper recently recorded the fact that during a revival meeting the exhorter shouted: "Everybody who wants to go to heaven stand up." The veracious local chronicler avers that not a single person responded, but instead of attributing the lack of enthusiasm to the inherent wickedness of the community he proceeds to explain by saying that the home town is such a good place to live in that nobody wants to leave.

There is something more than plausible about the explanation when one considers the season of the year. Without doubt there must have been a sorghum kettle in blast somewhere near the scene of the revival, and no good Kentuckian is so deluded as to hanker after manna ambrosia, nectar or any such feebly flavored messes, as long as he has the assurance of waking up in this world to watch a pile of golden brown corn cakes dripping with fresh sorghum and butter fade away into his esophagus apparently of their own volition and without effort.

A nice fried chicken or a tender young rabbit weltering in its own gravy, with a few baked potatoes and other accessories, will serve as a groundwork for the gustatory edifice, but the pinnacing delight, the cupola which crowns the feast with a golden dome more satisfactory to the normal human being than all the auriferous towers of Paradise, is that pile of cakes saturated with the divine essence, of the cane. You crowd in a cup of clear hot coffee, lurch out into the crisp November sunshine with your pipe in your mouth and ruminant with satisfaction on the fall farm work already well in hand, and lo it comes to you again—a honeyed breath from some neighbor's kettle. 'Lasses bilin' time's no time to talk about goin' to heaven.—Courier-Journal.

SICK AT RIVERVIEW.

says he was re-elected a director. Mr. Scott was succeeded by Gen. Thos. H. Hubbard, of New York, who is chairman of the executive committee of the Chicago and Alton road also a Hawley property.

Whether these things have anything to do with an acquisition of Carolina, Clinchfield & Ohio Railway by the Chesapeake and Ohio does not appear, but the several items would seem to indicate that an important step has been made or is about to be taken.

At Norfolk it is reported that the New York Central has acquired or are about to acquire the Virginia Railway, that was built by the late H. H. Rogers of New York, as a great coal carrying road of easy grades all the way from the coal fields of West Virginia to the Chesapeake Bay, and it is intimated that the changes in the directorate of the Chesapeake & Ohio may be on account of anticipations that considerable rivalry and competition will result between the roads.

MAN KILLED IN BOYD COUNTY.

A crowd of young men from the neighborhood of No. 8 mines came to Ashland Saturday evening, and it is reported visited a number of "Flip Joints," in the city, and about seven o'clock started to return home. Arriving at the foot of the Austin Hill, it is said they stopped at another alleged "Flip Joint," operated by a man by the name of Tufts, and after leaving this, most of the crowd was pretty well under the influence of liquor. About halfway up the Austin Hill, James Evans and Clyde Robnett, two members of the party became involved in a quarrel and several blows were struck. Robnett claims that Evans struck him in the mouth with his fist and as he tried to get away, he followed him up with repeated blows. Robnett says he then drew a knife from his pocket and opening the blade, struck at Evans in an effort to defend himself. The blade entered Evans' breast directly over the heart and the wound was of such a nature that Evans dropped dead in his tracks.

Robnett, after seeing what he had done, retraced his steps to this city, and going to the Police Headquarters, surrendered to the officers, and he was placed in the city jail, pending examination.

Evins, the dead man, was 38 years of age, single, and was a cripple, having a wooden leg. Robnett, the user of the knife, is a young fellow, just 20 years of age, and was also single. They both reside near No. 8 Mines, and had, previous to this time been good friends.—Ashland Independent.

THE TRUE TEST.**Tried in Louisa. It Has Stood the Test.**

The hardest test is the test of time, and Doan's Kidney Pills have stood it well in Louisa. Kidney sufferers can hardly ask for stronger proof than the following:

Mrs. Sarah Pigg, Main St., Louisa, Ky., says: "I suffered from many distressing symptoms of kidney trouble. My back was the weakest spot and the dull, heavy pains through my loins were almost unbearable. I was weak, tired and devoid of ambition and often was annoyed by headaches and dizzy spells. The kidney secretions also bothered me and I felt like giving up. Doan's Kidney Pills were brought to my notice and I began their use. Before long the passages of the kidney secretions were regulated and the other symptoms of my trouble disappeared." (Statement given June 27, 1908.)

No Trouble Since.
On June 22, 1909, Mrs. Pigg added to the above: "During the past year and half, I have not had the least return attack of this complaint."

KILLED AT NOLAN.

Hal Starr, aged nearly 70 years, was instantly killed Tuesday evening near Nolan when the engine of passenger train No. 16 struck him. Starr and several boys were walking along the track and a freight train going west prevented them hearing the approach of the passenger.

The boys, who had been hunting, jumped in time to save themselves but Starr was struck and his body hurled with great force, struck one of the boys, knocking him through a barbed wire fence.

The FUR SEASON IS HERE

The choicest selections from our magnificent stock of fine furs will be made within this month. The advent of cold weather will bring these items into sharp demand and as early selection is always best in the selection of articles of wearing apparel.

These furs are WINTER KILLED when the skins were in their best condition and the proper tanning and treatment has given our fur stock a distinct advantage over the average for showing.

Furs in sets of collar and muff in a wide range of pretty and new effects and in a wide variety of kinds and prices. Genuine black lynx is very popular and mink stoles and muffs are much in demand as furs of the better class. We have separate pieces and our stock is so large and varied that we can usually match any piece you may now have in order to make a complete set to match.

In addition to our regular stock for the season the purchaser will find a superb stock of fur coats ranging all the way up to one hundred and fifty dollars in price and at all lower prices in the range of a good serviceable coat of this kind.

Do not overlook the solid and substantial values we are offering in our cloth suits and coats for the winter season on your next visit. We are more than pleased with the results of our opening fall business and are actively engaged in securing those later suit and coat models that make their appearance late in the season after the style trend has become pronounced.

FREE RAILROAD TRIP TO CINCINNATI.**CINNATI.**

A. E. Burkhardt, the International Fur Merchant, who is making Cincinnati famous as one of the world's great fur centers, extends an invitation to all the citizens of Louisa, who intend to purchase furs for this season, to visit Cincinnati and inspect his enormous plant, where furs are manufactured and direct "From Trapper to Weaver," thus eliminating all "middle-men" profits. They are the largest purchasers of raw fur skins in this country, being exporters, importers and manufacturers; and their low prices for women's wear are positively beyond all possibility of competition. This is the generous proposition he makes:

Go to Cincinnati, look over A. E.

Burkhardt's enormous stock in the two 6-floor buildings at the corner of Main Street and Third Avenue, select just what you want, and the cost of your railroad fare, for BOTH WAYS, will be paid by the firm, providing it does not amount to more than ten per cent of the purchase price of the article. goods are marked in plain figures and you need not mention that you wish your railroad fare until AFTER making your purchase.

We advise our readers to take advantage of this liberal offer.

THE WHITE SCHOOL.

It Looked Like the Negro School, but This Was a Mistake.

During one of my drives of exploration I passed a school in Spencer county, about thirty-five miles east of Louisville. At first sight I was sure I had stumbled upon a typical negro school, but as I went about the yard with my camera a farmer who lived near by came over to see what I was doing.

"How long has this colored school been here?" I asked.

"This is the white school, an' I don't know how long it's been built. All I know is that it wasn't noways new

THE ANCIENT WRECK WITH ITS SAGGING FLOOR.

when I moved into this neighborhood thirty years ago comin' May."

"When was it painted last?"

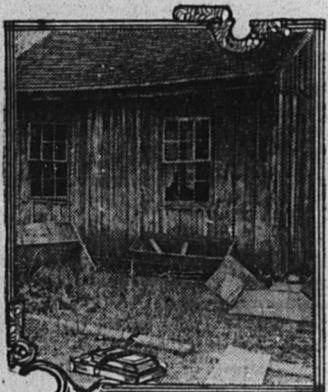

"Painted?" He laughed good naturedly as he took a fresh chew of his twist. "Painted? Why it ain't never had no paint on it that I ever see or heard of."

I looked at the ancient wreck, with its sagging floor, its scattered rock about the door where there should have been a walk; then my glance fell upon a new, sturdy long distance telephone pole which stood close to one corner of the building. I walked up and, placing my hand against it, waited and fell to thinking. Suddenly the busy humming of the wires seemed to be whispering insistently to the broken house: "Wake up! Wake up! We are not asleep today! We are in the hurrying and scurrying twentieth century! Wake up and join the procession!"

On the far side of the school I stumbled upon some old fashioned hand-made desks and at once asked my farmer friends where they had come from.

"Why, they come out of the school there, of course. The children used 'em until this year, when they put in some new ones."

My next search was for the closets. I knew there was no coal house on the premises, for the old desks were piled

"THIS HERE IS A PAUPER SCHOOL," upon the top of the winter's supply of coal. I was unable to find even the remains of any closet, so I again questioned my farmer friend.

"They ain't never had none since I been in the neighborhood!"

"Haven't had any closets at all?" I exclaimed in amazement. "How can your teachers handle a school without closets?"

The man hesitated a moment, shifted his quid to the other side of his jaw and answered quietly:

"Gawd knows, I don't."

"How do you happen to have such a poor schoolhouse in this part of the country—the land looks pretty good."

"You see, this here is a pauper school."

I pretended not to understand him fully, so I asked:

"My, that's too bad. I had no idea that the farmers up here on the headwaters of Salt river were so poor. You haven't even got a church in the neighborhood, then?"

"Oh, yes! We've got a mighty nice, brand new church a mile out the pike from here."

"State built that, too?" I suggested.

"Why, no; the folks all chipped in and built it," he explained carefully. "We ain't poor folks at all."

"Why couldn't you folks chip in and do something for this old tumbledown school?" I asked.

"We could have done it, couldn't we?" he exclaimed. "I reckon we just never thought about it that way."

Education Pays.

The state of Kansas, though less than sixty years old, has excellent schools, and her taxable property has increased at the rate of \$120,000,000 annually during the past ten years, a total increase of \$120,000,000 in a decade. This is twice the total assessment of Kentucky.

The valuation of real property in Kentucky is \$47,835,250. In Kansas the same class of property is valued at \$157,048,750.

The valuation of personal property in Kentucky is \$143,113,006, while in Kansas it was \$880,643,069.

The total assessed valuation in Kentucky was \$644,489,000 and in Kansas \$2,453,691,850.

The above figures are from the World Almanac for 1910.

the outdoor work that has been put off, lest winter catch us unprepared.

Selling the farm and moving into town to join the store-box club is a good deal like trading off the best cow for a yellow dog. Don't do it, brother, as long as you can plow a straight furrow.

If you had to stack any hay out this year, look at the tops before winter sets in; they sometimes settle badly, so that the storms are likely to injure the hay very much. If this is the case with yours, top them again. Thick, fine grass is the best for this purpose. Tread it down well.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

A LETTER FROM KANSAS.

Holington, Kans. Oct. 14, To the News:

I would not have you think I am dead, but busy. It has been quite a while since I chronicled my last little article to the News, and to be honest I could not explain why, myself. I enjoy the columns of the News, and always delighted to hear from home yet we sometimes get very busy and neglect things.

This year, I have been very busy being the president of the Board of Education and having a high school building to superintend, saying nothing of my every day duties in my professional work, but am glad to say we have the building completed and I must say it is a monument to our city, and a credit to the State. We have also selected our corps of instructors from superintendent down to the primary grades, sixteen in all and they too are busy, and from all indication, we are having a splendid school. Most all the teachers employed have degrees from A. M. to B. of ph. We have two magnificent schoolbuildings in the city, well equipped in every particular, and we are maintaining one of the best high schools in the State, as well as a splendid course in all common branches. Besides these advantages, educationally speaking, you can take any kind of course in manual training, engineering, architecture etc. at our Y. M. C. A.

No state in the Union can boast

HOME CIRCLE COLUMN.

COLUMN DEDICATED TO TIRED MOTHERS AS THEY JOIN THE HOME CIRCLE.

Hard hands, strong arms, and sunburned faces are honorable. Take "Excisor" for your motto, and if you are patient, in a few years you can surely write under it that other good word "Eureka."

Youth and age have too little sympathy with each other. If the young would remember that they may be old, and the old remember that they have been young, the world would be happier.

Did you ever realize that nothing on earth can smile but a human being? Gems may flash reflected light but what is a diamond's flash? A face that cannot smile is like a bud that cannot blossom, and dies upon the stalk.

How sad is he who can never go back to his childhood without a shudder. Who can never recall a period when his life was filled with sweet and simple satisfaction. When a kind and loving mother reads aloud to the family Home Circle department from the columns of this paper.

Now few, comparatively, of the young people of the present day appreciate as they should the inestimable privileges they enjoy. Surrounded as are the young in all cities and most towns, with all the opportunities necessary for the cultivation to a literary taste, not one in a thousand appear to improve these golden chances. Occasionally it is true we meet with a young man or woman who firmly grasps the idea that "knowledge is power," but these unfortunately, are the exception, not the rule.

We doubt if one instance in a thousand can be found of a young man's making shipwreck of hopes and character who was accustomed to spend his evenings at home reading good books; and we say to any parent that a well stocked library and a good supply of newspapers and magazines, with the habit of reading on the part of your boy, is worth more to keep him out of mischief, and to make a man of him than any other single influence at the command.

Knowledge is power. It is not the world owes you a lot that until you have earned one, and decide in boys and girls is the relief. It is a great work and just as for the young woman as for the young man. When the girls, in their innocence, cast aside the loose and vain fickle, and don't want beautiful garments of luxury, comfort from the sick bed of the "accomplished" member of the "accomplished" Ann Maria. Her motto, "Woman's ability to light," then the boys will be more earnest, more temperate, like men. Dear young markable who are not afraid or ashamed of

sweethearts. Until a man becomes thoroughly vicious, the thought of a pure woman's love will do much to restrain him from iniquity. If that love grows careless in himself. Think of this you who have sons, brothers or loves away among strangers. Remember that you owe them a sacred duty; and give them frequent missives from home, freighted with love and accompanied by earnest prayer.

Peach your children to the beautiful. Give them a corner in the garden of flowers; encourage them to put it in the shape of hanging baskets; show them where they can best view the sunset; rouse them in the morning, not with the stern "time to go to work," but with the enthusiastic "see the beautiful sunrise." Buy for them pretty pictures and encourage them to decorate their rooms in his or her childlike way. Give them an inch and they will go a mile. Allow them the privilege and they will make your home beautiful.

There is food for thought in the story that is told of a young lad who for the first time accompanied his father to a public dinner. The waiter asked him, "What will you take to drink?" Halting for a moment, he replied, "I'll take what fate takes." The answer reaches his father's ear, and instantly the full responsibility of his position flashed upon him. In a moment his decision was made; and in tones tremulous with emotion, and to the astonishment of those who knew him, he said, "Waiter, I'll take water."

Place a young girl under the care of kind-hearted women, and she, unconsciously to herself, grows into a graceful lady. Place a boy in the establishment of a thorough-going, straight-forward business man, and the boy becomes a self-reliant, practical business man. Children are susceptible creatures, and circumstances, scenes and actions always impress.

Mothers sometimes forget that the cative and receptive stage of childhood in the nursery is never surpassed at a later period. The little one is taking impressions every moment, acquiring gentle habits or the opposite, picking up words and sentences, surprising his elders by the facility with which he learns what they would rather he should not know. In the baby's home the foundation is laid for the good or bad manners of the mature man.

WEST VIRGINIA NEIGHBORS.

NEWS FROM COUNTIES JUST ACROSS THE RIVER IN WEST VIRGINIA.

The Big Huff Coal Co., of Huntington, W. Va., reported last week as incorporating with a capital stock of \$400,000, has organized with J. B. Wilkinson of Logan, W. Va., president; J. D. Lowry, Catlettsburg, Ky. vice-president, and Thomas H. Harvey of Huntington, secretary and treasurer.

The company owns about 3000 acres of coal land in Wyoming county, between Huff's Creek and Clear Fork of Guyandotte River. This property contains coal which is said to be excellent for by-products analysis showing 31.20 per cent volatile matter, 63.95 per cent fixed carbon and 15,552 British thermal units of heat. Mr. Harvey advises the Manufacturers Record the company's plans for development have not yet matured.

field they are still sweet on Senator H. D. Hatfield, and are willing to wait until he makes a final announcement, while there are some who do not believe that Supreme Court Judge Ira E. Robinson has recovered from an inoculation of the gubernatorial virus and will make the race. State Auditor John S. Darst, Secretary of State Stuart F. Reed, State Superintendent M. P. Shawkey and State Treasurer E. L. Long are all ready for the start and are waiting for the call of the race.

There are not a few West Virginia Republicans who can agree with Senator Jonathan Bourne, of Oregon, on one of his propositions. They do not subscribe to all of the fancies of the Oregon Senator, but they are inclined to think that some of the party machinery needs adjustment when states like Mississippi, Texas and Louisiana, polling not as many Republican votes in the entire state as are polled in one congressional district in West Virginia, can send larger delegations to the Republican National Convention than the Panhandle State. The representation at the convention is based upon the population and upon the vote, and as a result the Southern States have about one third of the votes in the national convention. Congressman J. Francis Burke, of Pittsburgh, waged a fight against this system in the last convention. It will probably be renewed at the next convention, and very likely West Virginia will send several delegates to the convention who will indorse the Bourne plan to make the representation on the vote polled rather than the population.

The Supreme Court of Appeals has been asked to do what the Legislature attempted and failed at the regular session last winter—to abolish the office of the State Tax Commissioner. At the session in January last, Senator William A. MacCorkle was the patron of a bill which aimed at the immolation of the Tax Commissioner and his staff. Some of the Democratic members of the Senate and House of Delegates balked at the idea, and the Tax Commissioner, who is also the head of the bureau of public accounting, was given a new lease on life.

For some time the county officials of the several counties have been endeavoring to break away from the uniform record installed by the bureau and a test case was agreed upon with the Tax Commissioner, who endeavored to secure a writ of mandamus against Sheriff E. P. Smith, of Kanawha county, to compel that official to use the forms prescribed by the bureau. In the arguments before the Supreme Court of Appeals, the attorneys for the defendant contended that the office of the State Tax Commissioner was an illegal one and that there was no authority by which it was created.

A Constant Protection

A telephone on the Farm affords the Farmer's family freedom from isolation as well as protection in the absence of the men.

Mr. S. S. Lee, of Blanch, N. C., writes: "Some time ago one of our friends' husband was compelled to be off until ten o'clock at night. During that time no one was in the house but his wife. She talked to us all up and down the line, and each family was ready to go to her at a minute's notice. She said she was so glad she had a phone, as she would not feel at all lonely."

BRANCH OFFICE, LOUISVILLE, KY.

The above companies are both incorporated for \$6,000 each divided into 600 shares at \$10 each.

REUBEN FORK OIL CO. consists of Floyd McCown and Jack Adkins farms situated on the head of Reuben Fork of Lick Creek and contains 300 acres. 1st well will be located less than one mile south of Lick Creek well.

COCHRAN OIL CO. consists of the following tracts or farms: G. C. See, W. R. Childers, James Miller and H. C. Cochran. Bounded on South by Reuben and on the West by Lick Creek and this well will be located less than one mile south of Lick Creek well.

These two wells will be promoted on same general plans as we promoted the Square Deal Oil Co., the promoters retaining \$500 in stock and 1-8 part of the oil so you see if we are not successful we get nothing for our leases or labor. Who could ask for a fairer proposition? The price now asked for rentals are so high that hereafter a proposition of this kind could not be promoted on these terms.

Enough stock has already been subscribed in both of these wells to make them an assured fact and we expect to start our derricks within a week or ten days and rush same to completion.

There is oil on the West, North and East side of these tracts. What more could you ask and what other company can give you such inducements? Get your name on our subscription list before it is too late.

Our previous square dealing should convince you that your money will be well guarded and judiciously handled.

OBITUARY.

Mr. James H. Stewart, a well known citizen and retired business man, died at his home in North Catlettsburg, Oct. 11th, after a lingering illness for several years. Mr. Stewart was loved and respected by a wide circle of friends and business associates who knew him for his worth and who will revere his memory. Mr. Stewart had been in business in Ashland 30 years until about six years ago, when he retired from active business life owing to ill health, leaving the conduct of his business largely to others. About three years ago he purchased a beautiful home in North Catlettsburg and moved to it, where with his interesting family he spent the last years of life.

James Stewart was born in Lawrence county, Ky., June 19, 1853. He was the son of Alvin Stewart, sturdy, substantial and highly respected people of that community. In early young manhood he went to Ashland and cast his lot with the thriving little city which at that early day he felt sure was to become the metropolis of Northeastern Kentucky. Of his father's family he is survived by one brother, Marion Stewart, of Buchanan, and one sister, Mrs. Eliza Fannin, of Hubbardsontown, W. Va. In his own family he is survived by his wife and the following children: Mrs. John Kobs, Jr., of Ashland; Mrs. Carlton Kountz, of Huntington, and Morris, Marvin and Jessie at home. The floral offerings were beautiful and they wish to thank their many friends for their kindness during the illness and death of Mr. Stewart. He was a faithful member of the I. O. O. F. lodge, which had charge of his funeral Thursday afternoon.

The Jackson Times says:

News has just reached the city of the suicide of Miss Rhoda Osborn, daughter of Jake Osborn, on War Creek in this county.

According to the reports received

Miss Osborn went to the home of Jim Gibbs, Thursday morning, where she procured a shot gun and going just outside the house placed the gun to her temple and pulled the trigger, blowing her head to pieces and scattering her brains all over the yard.

The cause leading to the rash act has not been learned and seems to be a mystery.

There was a most exciting meeting on Indian run, short distance south of Russell, on Saturday night, resulting in the fearful cutting of one man and another being shot in the head, and who has but the most remote chance of recovery.

The affair took place at a country church where there was a box supper." The report states that a man by the name of Potter became involved with a crippled man whose name we have failed to learn. Potter was using a knife with desperate effect on his crippled adversary who was a man by the name of Marcum. Interfered to save the cripple. Potter then drew a gun and shot Marcum in the back of the head, inflicting a wound from which the recovery is remote doubtful.

Richmond, Ky., Oct. 31. In Rowan, which is among the remote mountain counties of Eastern Kentucky, a precedent is being set which is expected to go down in the history of education as being the first and perhaps the only of its nature ever known in the United States.

Mrs. Cora Wilson Stewart, the superintendent of public schools of that county, has systematically organized public night schools throughout the districts for persons 18 years old and older.

The object of the movement is to wipe out illiteracy of that section, and the movement is heartily supported by business and professional men, who are lending every assistance possible in relieving the county teachers, who have to teach both the day and night schools.

Over 1,000 pupils have already enrolled, consisting of boys, girls, men and women, ranging from 18 to 50 years of age, and where
